

PACK EXPO International 2010

Where It All Connects

Packaging | Processing | And More

PACK EXPO International 2010 is the one tradeshow where the entire packaging and processing industries connect—gathering more than 45,000 professionals from around the world under one roof.

Connect at the World's Largest Packaging & Processing Show in 2010!

1,000,000+ Square Feet
45,000 Attendees
1,900 Exhibitors

One Source to Connect It All

"PACK EXPO is our largest lead generator for the year. We typically sell equipment on the floor each year, and we intend to do so this year, too."

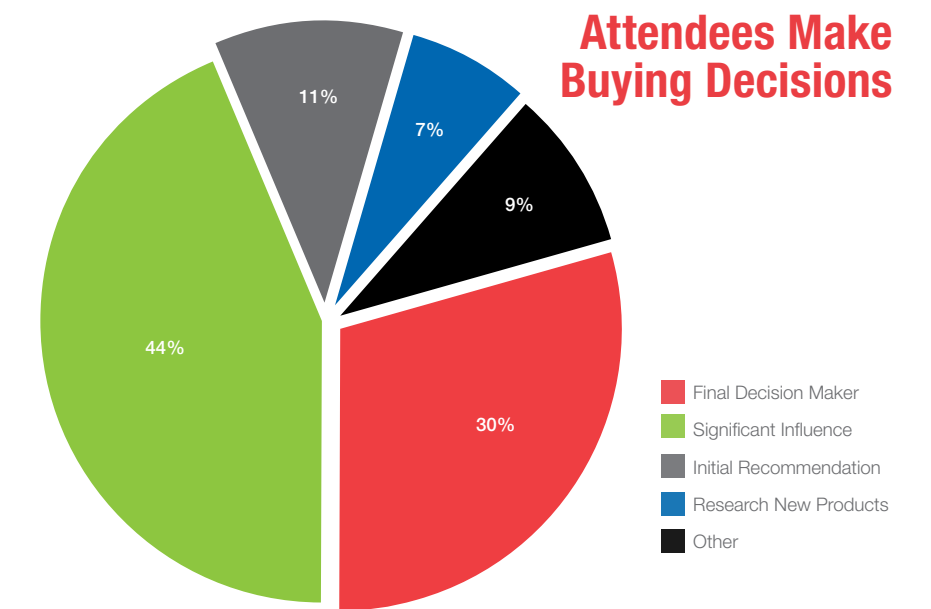

Kurt Riemenschneider, Sales Manager
Highlight Industries

Where Packaging & Processing Sales Are Made

PACK EXPO International attendees come to the show to get their hands on the latest machinery, materials, components, and containers.

PACK EXPO attracts a high-powered audience of corporate executives, senior directors, engineers, and production managers in charge of design, implementation, and operation of packaging and processing lines.

PACK EXPO International draws the entire packaging and processing industries together for four days of marketplace interaction, education, and networking.

If you want to make the connections that lead straight to sales, you need to be at PACK EXPO International 2010—the world's largest packaging and processing show.

As an exhibitor, you can capitalize on:

- The best value of any processing and packaging show—including affordable booth space
- More attendees looking for packaging and processing solutions than any other show
- Highly targeted and qualified prospects—who are ready to buy
- Peak visibility from extensive pre-show and show-floor marketing

85%
of exhibitors expect to sell products and services as a result of PACK EXPO International

"PACK EXPO is always one step in closing the order with new customers, because it allows them to see the machinery in action."

Rich James, Director of Marketing
Serpa Packaging Solutions

Where You Can Sell Globally & Locally

PACK EXPO International attracts visitors from around the world. In fact, PACK EXPO International 2008 set a new standard with international prospects from nearly 110 countries.

PACK EXPO has received the U.S. Department of Commerce's International Buyer Program designation. We are the only packaging and processing event in the United States to be actively promoted by U.S. Foreign Commercial Service offices around the world.

"PACK EXPO International is **the** show in packaging. Our expectations for the show are always high and we get many qualified leads from educated customers each year."

Lisa Barbieri
Ballatrix

Where You Make the Right Connections

Buying teams from leading companies attend PACK EXPO International to find solutions that span the entire packaging and processing supply chain.

"PACK EXPO International is the premier show for our industry, so it is our philosophy to bring our latest technology. Since many customers are visiting our booth to discuss real projects, the show provides an opportunity to let them see equipment. Without seeing it in person, they may not be able to envision how it could improve their operations."

Olivia Khan
AIDCO International

Decision Makers Attend PACK EXPO

Attendees Represent a Broad Range of Industries

Where Every Vertical Market Connects

- Automotive
- Bakery/Snack
- Beverage
- Chemical-Industrial
- Confection/Candy
- Container Manufacturing
- Cosmetics/Toiletries
- Dairy
- Electronics
- Fruits/Vegetables
- Furniture/Fixtures
- Grain/Mill/Cereal
- Hardware/Tools
- Meat/Poultry/Seafood
- Metals
- Paper/Printing
- Petroleum
- Pharmaceutical/Medical
- Produce, Fresh
- Soap/Household Chemicals
- Textiles/Apparel
- Tobacco
- Toys/Sports/Crafts

Where Affordability Drives Value

No other packaging and processing show delivers as much value. Not only can you connect with the most packaging and processing buyers, you can capitalize on the most affordable square footage of any other show in the industry.

Only one event features the very latest in processing and packaging innovations, new trends and technologies, and creative business solutions. Value and efficiency like that can only be found at PACK EXPO International!

\$24.50

PACK EXPO International is only \$21.50 per sq. ft. plus \$3.00 per sq. ft. for all your drayage!*

*Special member rates apply.

Where Show Services Help You Shine

Exhibiting at PACK EXPO International couldn't be easier. Your dedicated Customer Account Manager will guide you through the pre-show process every step of the way, and will facilitate all of your show services—from start to finish.

PACK EXPO Services has a vested interest in your success, and we'll be there to make sure you have everything you need.

Where Marketing Power Drives Visibility

Turn your prospects into customers. When you exhibit at PACK EXPO International, you get the regional, national, and international marketing power only PACK EXPO can deliver.

- **Pre-show marketing.** From targeted direct mail and email campaigns to broad-based public relations, and everything in between, we'll deliver more than 4.5 million marketing impressions to drive your most valuable customers to the show.
- **Packexpo.com.** As a PACK EXPO International exhibitor, you automatically get a free listing on packexpo.com, the largest, most widely used website for packaging and processing buyers year-round.
- **My PACK EXPO.** This dynamic online tool allows you to interact with buyers ahead of time. Set up meetings during the show and follow up with prospects you miss at the show. My PACK EXPO is free to all registered attendees, so they can organize their days ahead of time and arrive ready to start working.

"The marketing promotions for PACK EXPO are outstanding. No one else offers the tools that PACK EXPO offers (mypackexpo.com, mailers). The support for exhibitors is like none other."

Sue Lewis
Combi Packaging Systems

Where Sponsorship Drives Opportunity

High-profile sponsorships make the most of your marketing dollars. Raise your visibility and increase the return on your exhibiting investment at PACK EXPO International with high-profile sponsorships that put your company's name in front of your prospects. Here are some of the possibilities:

- Cyber City Cafes
- Exhibitor Lounges
- PMMI Member Lounges
- Pocket Guide
- Bus Sponsorships

Ask your exhibit sales manager how to leverage sponsorship opportunities to increase the return on your PACK EXPO International investment.

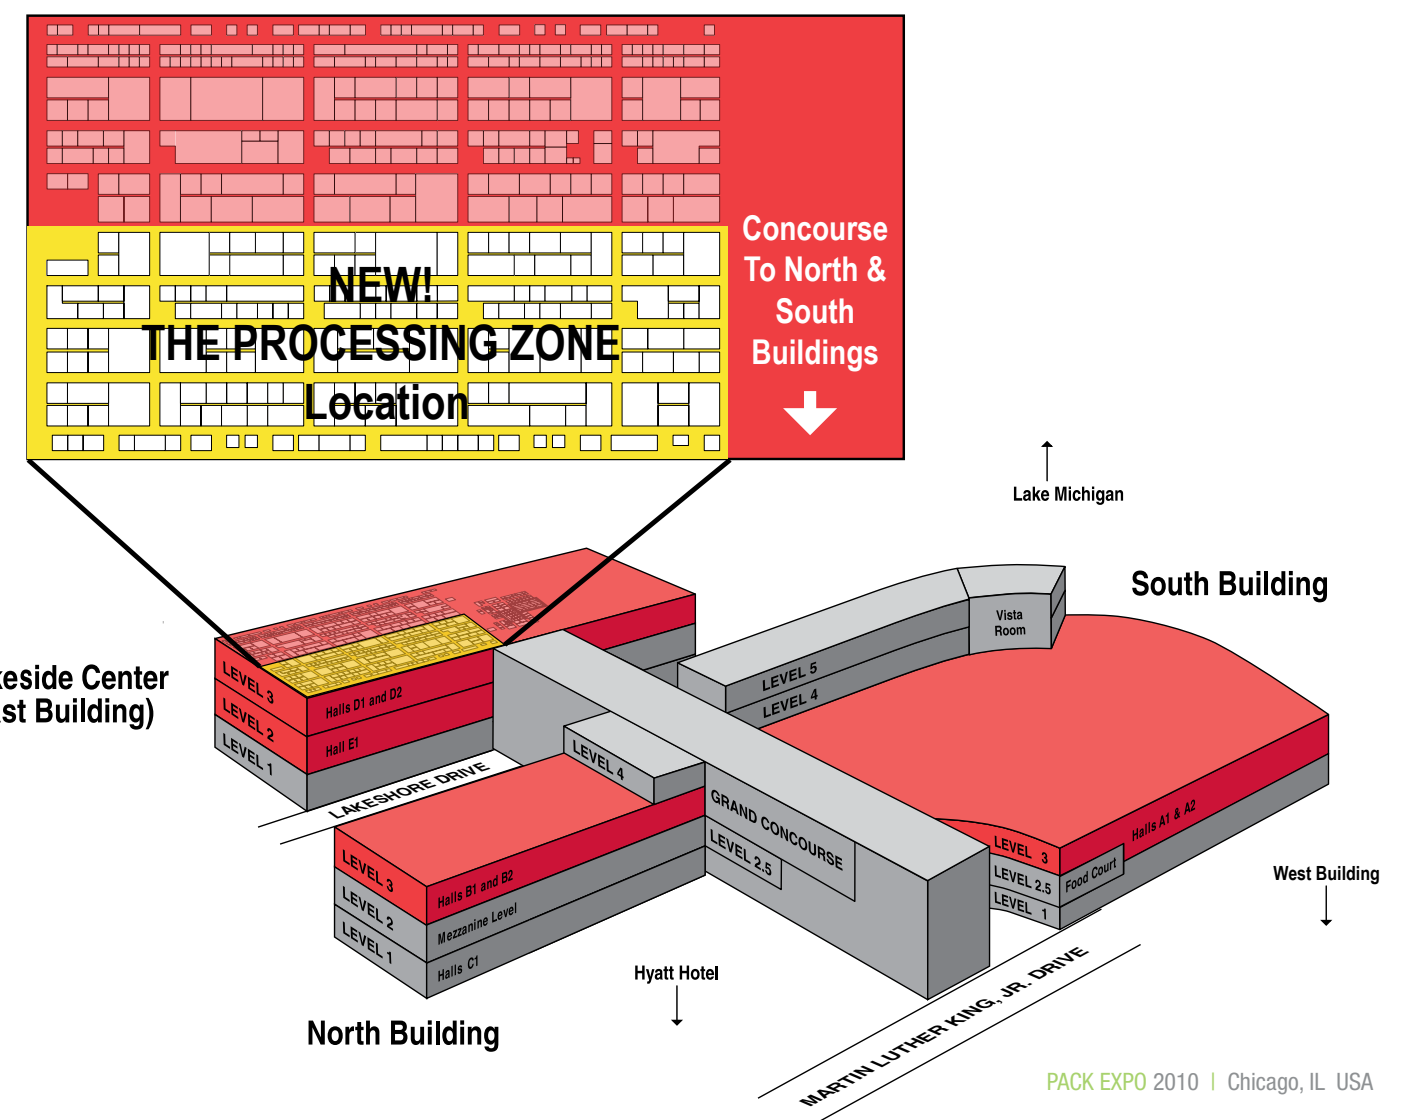

Where Packaging & Processing Meet The Processing Zone

In today's manufacturing environment, the processing and packaging areas of the production line are coming together as an integrated system. That's why PACK EXPO International has expanded to integrate processing solutions directly into the show.

And with the expansion comes the debut of The Processing Zone. The Processing Zone will spotlight the processing solutions that will help today's leading companies address the production line as a complete process—especially when looking at rates, efficiencies, and other improvements.

Where Prime Exhibit Space Makes an Impact

At PACK EXPO International, we've dedicated prime exhibit space—over 53,000 square feet—exclusively to processing. In fact, more processing companies will be exhibiting at PACK EXPO International than at any other show.

Where the Entire Production Line Connects

Today's consumer and industrial goods companies are combining the engineering teams within their companies in order to support total systems solutions for their enterprises. The focus is on overall operational excellence across the production line.

And PACK EXPO International's expanded focus addresses that need by bringing packaging and processing solutions together. Simply put, PACK EXPO International 2010 will be the single largest packaging and processing event in the world.

97% of past attendees surveyed say they came to PACK EXPO to see both packaging and processing solutions

Where Confectioners Find Sweet Success

For the first time ever, PACK EXPO International will feature a new Confectionery Pavilion, sponsored by the National Confectioners Association. The Confectionery Pavilion will showcase the latest in processing and packaging for the confection industry and will be located in dedicated exhibit space in the South Hall.

"Heat and Control offers food processing, packaging and inspection solutions—and we are very pleased to now be able to exhibit representative pieces from all of our equipment lines in our booth at PACK EXPO shows. This will allow our customers to see the full product range and discuss the total system solution with us, in one place."

Audrey Waidelich
Heat and Control, Inc.

Where Containers & Materials Shape Winning Brands The Brand Zone

To help brand owners maximize success on the retail shelf, PACK EXPO International features The Brand Zone—formerly known as the Containers & Materials Pavilion.

Covering more than 60,000 net square feet, The Brand Zone spotlights packaging technologies to help executives, brand managers, marketers, and package designers launch new products, refresh existing brands, and improve sustainability scores.

It's where industry-leading exhibitors will feature innovative materials and containers that increase visual impact, enhance convenience, maximize shelf life, and add functionality.

Branding Solutions on Display

- Glass
- Plastic
- Metal
- Paperboard packaging
- Decorating
- Labeling
- Re-sealable technologies
- Business intelligence
- Other resources

1 in 3 attendees surveyed come to PACK EXPO specifically to see packaging materials

"I really like the way this show is organized, especially the separate Containers & Materials Pavilion."

Joy Krueger
Klockner Pentaplast

Where Innovations Come into Focus

The Showcase of Packaging Innovations®, sponsored by The Dow Chemical Company, draws attendees interested in the year's most innovative and award-winning package designs from prominent packaging associations around the globe.

The Showcase also features PACK EXPO Selects®, a display of best-in-class commercial packaging projects designed, produced, or implemented by PACK EXPO exhibitors.

Enter PACK EXPO Selects® Today

PACK EXPO Selects® highlights innovative commercial packages developed, produced, or executed by PACK EXPO exhibitors. Put your cutting-edge designs, structures, and processes in front of thousands of PACK EXPO attendees looking for their next breakthrough packaging idea!

Nominate your customer's package that has been introduced into the commercial marketplace and explain your company's role in developing, producing, or executing it. There is no entry fee and you can enter more than one package for consideration.

Where Green Means Business

Sustainability isn't a buzz word anymore. It is an essential part of today's corporate strategy—especially for the packaging and processing industry.

That's why green technologies—ranging from sustainable packaging materials to energy-efficient machinery—will again take center stage at PACK EXPO International.

PACK EXPO Green helps attendees easily identify exhibitors with sustainable solutions using special icons that flag listings on www.packexpo.com, in the Pocket Guide, and in participating exhibitors' booths.

"It was extremely helpful that there was an entire section dedicated to my specific packaging need."

Bryan Whitehead
Boar's Head Provisions Company

"The focus on sustainability was a key factor that brought me to PACK EXPO. We are very interested venturing into the retail sector with minimalist packaging."

Philip Wilbur
Hurricane's Soup & Chowder

Rules & Regulations

Exhibitors understand and agree that the PACK EXPO International 2010 Rules and Regulations are an integral and binding part of the Show and contracts. Following these guidelines will help lead to a successful show for all PACK EXPO exhibitors.

SPACE RATE – All drayage/material handling is included in your space rate, provided your shipment/truck checks in at McCormick Place by 2:00 p.m. on your assigned targeted move-in date. See the Exhibitor Service Manual for the Targeted Move-in Schedule.

A special assessment will apply to inbound shipments which arrive after 2:00 p.m. Monday–Friday, all day Saturday and Sunday (inbound only), and on any advanced warehouse shipments. See the Exhibitor Service Manual for pricing of special assessments.

The space rate will include a one-time spot of equipment and display material. Any additional rigging or booth work will be at the exhibitor's expense—see the Exhibitor Service Manual for pricing. All outbound drayage is included in the space rate and no overtime charges and no special assessments will apply.

NOTE: Space rate includes drayage for the Primary Exhibitor's* display material and equipment only. Any additional product or equipment is subject to additional billing.

*Primary Exhibitor is defined as the exhibitor who signs the Exhibit Space Application and Contract.

1. SHOW MANAGEMENT – This show is produced by and is the property of the Packaging Machinery Manufacturers Institute, Incorporated, hereinafter referred to as PMMI or Show Management. PMMI will provide all show management functions and establish all show policies. Rulings by Show Management (PMMI) shall in all instances be final with regard to use of any exhibit space.

Each prospective exhibitor is required to sign the **Exhibit Space Application and Contract**. By doing so, the exhibitor subscribes to **General Information, Rules and Regulations**, which is a part of the **Exhibit Space Application and Contract**.

Each exhibitor will be provided access to the online Exhibitor Service Manual which will also be considered an extension of the Exhibit Space Application and Contract.

2. DIGNITY – It is intended that all PACK EXPO Shows be a serious and dignified offering of products and services of value to the packaging and processing industries.

Further, Show Management (PMMI) may take any action it deems appropriate (including, but not limited to, expulsion from a show and/or suspension or elimination of seniority) against an exhibitor for conduct detrimental to the show, as determined in the sole discretion of Show Management.

3. WHAT MAY BE EXHIBITED – The show is designed for display and demonstration of packaging and processing machinery, packaging-related converting machinery, packaging materials used with such machinery, materials used for protective purposes, contract packaging, containers that hold a product for industrial or consumer distribution, material handling equipment that is of a “fixed installation” nature, packaging and processing-related publications, and certain machinery

sub-assemblies and/or sub-systems (including computer hardware/software) which will be demonstrated in a significant packaging and processing application. The phrase “demonstrated in a significant packaging and processing application” means that the product(s) must be displayed at the show as an integral part of the packaging and processing-related equipment that the product(s) was designed for, or must be shown on a demonstrating unit illustrating the packaging and processing function. This may be accomplished by demonstrating the function on a DVD or motion picture device providing the plans comply with item 19.

EXHIBITING PRODUCTS OR MACHINERY NOT OF YOUR MANUFACTURE

A. Equipment – Equipment being shown may not be displayed for comparison purposes (such as retrofitting the machine with new parts to show improved operating efficiency, etc.) without the approval of the OEM.

Items required to make display effective: An exhibitor may require the use of machines or materials that are not of their own manufacture or sold by them in the regular course of business in order to demonstrate properly the product(s) being exhibited. For instance, to demonstrate a wrapping machine, an exhibitor may need to use materials he does not himself manufacture or sell; conversely, a film manufacturer may need to use a machine he does not manufacture or sell. Under such conditions the following rules shall apply:

B. Machines – Machines used to demonstrate a product must, if possible, be obtained from another exhibitor in the show. If no machine is available from another exhibitor, a machine obtained from a non-exhibitor may be used only with advance approval of Show Management. To obtain such advance approval

the exhibitor must submit a statement explaining why no machine can be obtained from an exhibitor and what steps were taken to obtain one, describing the machine to be used, identifying the manufacturer and certifying that its use is essential. In no case will promotion of the non-exhibitor machine be permitted in any way, nor shall personnel of the non-exhibiting company be allowed to work in the exhibitor's booth.

C. Materials – Exhibitors shall use materials manufactured by other exhibitors wherever possible. Non-exhibitor materials may not be promoted in any way other than an imprint of the manufacturer's name on the material.

D. Other Items – Some exhibitors demonstrate machines or materials by wrapping candy, gum, food products, clothing, etc. No special permission is required for such items. All companies, whether or not they have previously exhibited, have been ruled eligible to exhibit, or are applying to be ruled eligible, may be required to list on the Eligible Product Listing the product codes which correspond with the goods they intend to show and the appropriate product section. Only products with a listed product code can be admitted and exhibited. Exhibitors may not **write-in** text or a new product code on the listing form, as these entries will not be considered approved. Show Management and the Eligibility Committee reserve the right to determine the eligibility of all exhibit space applicants and individual products to be exhibited.

Show Management reserves the right to group certain products in specific areas or pavilions.

(Also see Rule 6. SUBLETTING of SPACE)

4. SPACE ALLOWANCE – Minimum booth size is 100 sq. ft. per exhibitor, except where Show Management has developed a booth of lesser size. Show Management will cooperate with each exhibitor to provide the desired type

of booth, but cannot guarantee the availability of any particular booth size or configuration.

NOTE: A booth may have a main aisle frontage of not more than 3 times its depth.

Combinations of two or more of the spaces shown in the space diagram may be selected to make up one booth subject to limitations set forth above. Where the utility core is included in the booth, such as in a three-sided booth, the total area occupied will be charged at the regular space rate and the utility core footage should be included under "Total Square Feet" in the Exhibit Space Application and Contract.

Non-Contiguous Space – No exhibitor may choose more than one space using their own priority number if the booths are not contiguous. To choose additional space, PMMI members have to wait until all PMMI members have had the opportunity to choose and non-members have to wait until all non-members have chosen space. (Note: The committee defines contiguous space to mean a booth that is adjoining can cross a cross aisle but not a main aisle.)

5. COST OF SPACE – The cost of booth space is set annually by the PMMI Board of Directors. The cost of booth space includes: drayage/material handling, attendance promotion and publicity; customer invitation cards; Exhibitors At-A-Glance listing; Web site listing; Exhibitor Service Manual; perimeter guard service; and general illumination.

Exhibit space rental fees will be paid as follows:

- 25% non-refundable deposit to accompany Exhibit Space Application and Contract.
- 50% payment due by April 9, 2010.
- Final payment due by June 25, 2010.

Show Management will provide pipe and drape of a standard color not to exceed 8' in height for back walls and 36" side dividers only. Those exhibitors desiring pipe and drape of a different color or size, other than what Show Management deems "standard," shall do so at their own expense.

In the event that an exhibitor has any overdue or outstanding balance on any other PMMI product or service, PMMI reserves the right to apply any payments made by the exhibitor toward any Show to satisfy those outstanding past due balances.

6. SUBLETTING OF SPACE – The exhibitor **agrees not to assign, sublet, share, or apportion** space or any part thereof allotted to the exhibiting company, nor to exhibit, advertise, or offer for sale goods other than those manufactured or sold by the exhibiting company in the regular course of business.

Exhibitors are not allowed to trade booth spaces. The original Exhibit Space Application and Contract accepted by PMMI denotes which exhibitor is entitled to any given space.

(Also see Rule 3. WHAT MAY BE EXHIBITED.)

7. CANCELLATION OR REDUCTION OF SPACE –

Exhibitors may cancel from the show or reduce their space subject to the following conditions and restrictions:

A. The exhibitor shall give Show Management notice in writing of his intention to cancel or withdraw from the show and shall forfeit his 25% non-refundable deposit fee.

B. In the event the said notice of cancellation is received by PMMI after April 9, 2010, and prior to June 25, 2010, the exhibitor will forfeit any monies paid to date.

C. In the event a notice of cancellation is received after June 25, 2010 the exhibitor shall be obligated and agrees to pay the total cost of space assigned.

D. In the event of cancellation, Show Management has the right to use this space to suit its own convenience, including selling the space to another exhibitor, without any rebate or allowance to the canceled exhibitor. Show Management assumes no responsibility for having included the name of the canceled exhibitor or descriptions of his products in the Exhibit At-A-Glance, brochures, news releases, Web site or other materials.

E. In the event any exhibitor requests a **space reduction** from the originally assigned space (this includes mergers, acquisitions, or other similar scenarios whereas one exhibitor reduces or releases originally assigned space to co-locate with another exhibitor), the reduction will be treated as a cancellation and the exhibitor will be subject to the same conditions and restrictions set forth in Rule 7 A and B above.

F. Any exhibitor requesting a reduction in space is subject to reassignment.

8. DEFAULT OF OCCUPANCY – Any exhibitor failing to occupy by noon, Saturday, October 30, 2010, the space contracted for but not canceled is obligated to pay the full cost of such space. In that event, Show Management shall have the right to regard the space as canceled and have the privileges described in Rule 7D.

9. OUTSIDE ACTIVITIES AND EXHIBITS – Exhibitors agree, subject to expulsion of their exhibit from the show, not to exhibit their products outside McCormick Place in the City of Chicago during the exposition. Exhibitors also agree not to conduct any activity that

would induce visitors to leave the exhibit building during show hours.

Exhibitors are not permitted to hand out promotional items in aisles or common areas inside and/or immediately surrounding McCormick Place.

10. BUILDING OCCUPANCY/CANCELLATION OF

EVENT – In case the premises of McCormick Place are destroyed or damaged, or if the show fails to take place as scheduled or is interrupted and/or discontinued, or access to the premises is prevented or interfered with by reason of any strike, lockout, injunction, act of war, act of God, emergency declared by any governmental agency or by Show Management, or for any other reason, this contract may be terminated by PMMI. In the event of such termination, the exhibitor waives any and all damages and claims for damages, and agrees that the sole liability of PMMI shall be to return to each exhibitor his space payment, less his pro-rata share of all costs and expenses incurred and committed by PMMI.

11. EXHIBIT HOURS – Each exhibitor is required to keep at least one attendant in his booth during all show hours, subject to removal of his exhibit from the show at his expense. The official show schedule is as follows:

(Show Opens)

- October 31, Sunday 9:00 a.m. – 5:00 p.m.
- November 1, Monday 9:00 a.m. – 5:00 p.m.
- November 2, Tuesday 9:00 a.m. – 5:00 p.m.

(Show Closes)

November 3, Wednesday 9:00 a.m. – 5:00 p.m.

A. Admission – No one under 16 years of age (including infants) will be permitted onto the exhibit floor at anytime during move-in, show days, or move-out.

B. No one will be permitted in any exhibitor’s booth at any time during installation or dismantling of the show or during the hours the show is not open to visitors on show days, unless he himself is, or is accompanied by, a person able to identify himself positively as an employee or authorized representative of the exhibitor **and is badged accordingly.** Violators will be subject to expulsion for the balance of the show, and subject to be ruled ineligible for the next PACK EXPO Show.

12. INSTALLATION AND DISMANTLING – Exhibitors will be assigned a targeted move-in date on which their shipment must be delivered to McCormick Place. Penalties will be assessed for failure to meet this schedule. Show Management reserves the right to schedule deliveries. All exhibits must be installed by 2:00 p.m. Saturday, October 30, 2010, for inspection by the PMMI Show Committee. If installation of exhibit has not been started by 2:00 p.m., Saturday, October 30, 2010, Show Management reserves the right to authorize the official contractor to affect the necessary installation of the exhibit at the exhibitor’s expense.

NOTE: Crates must be kept within the confines of the exhibitor’s booth and may not stand in the aisle or service core.

Dismantling will start only after the close of the show at 5:00 p.m., Wednesday, November 3, 2010. Penalties may be invoked for violation of this provision. Exhibitors will be notified of the date and time by which their exhibit materials must be removed from McCormick Place. Show Management reserves the right to schedule removal of all exhibit materials from McCormick Place.

NOTE: In the event any exhibitor fails to remove his exhibit in the allotted time, Show Management reserves the right to authorize the official contractor to ship the exhibit materials through a carrier

of Show Management’s choosing, or to a storage warehouse, subject to the exhibitor’s disposition, or make such other disposition on this property as it may deem desirable without any liability to Show Management.

13. SERVICE ORGANIZATION – Show Management and McCormick Place will designate contractors to perform work at the exhibitor’s expense. Where union personnel are required by McCormick Place or by contractors involved, it shall be the exhibitor’s responsibility to comply with such requirements. In no event shall PMMI be responsible for the conduct of contractors or their employees. PMMI assumes no responsibility for the failure of performance by contractors, their charges, or any other matter relating to contractors or McCormick Place. The foregoing includes services rendered to the exhibitor including but not limited to drayage, machinery moving and erecting, rental of furniture, booth and floral decorating, photography, drinking water, telephone service, electricians, plumbers, carpenters, special sign work, etc.

14. ARRANGEMENT OF EXHIBITS – All exhibitors shall arrange their displays so they utilize only the booth area contracted for, and in such manner as to recognize the rights of other exhibitors and show visitors, and to conform to the overall pattern developed by Show Management.

There are two types of aisles:

- **Main Aisles:** Aisles that are perpendicular to the main entrance of any given hall.
- **Cross Aisles:** Aisles that are non-parallel to the main aisles.

There are five types of booths:

- **In-Line Booth:** A booth facing a main aisle with another exhibitor on each side or an exhibitor on one side and a cross aisle on the other (a corner booth).

- **Perimeter Wall Booth:** A booth that backs against a wall of the exposition hall.
- **Aisle-to-Aisle Booth:** A combination of in-line booths back-to-back, facing two aisles but not on cross aisles.
- **Peninsula Booth:** A booth facing two main aisles and a cross aisle with two exposed corners.
- **Island Booth:** A single block of space facing two main aisles and two cross aisles with four exposed corners.

A. Height Regulations:

1. **In-Line Booth:** Booths under 1,500 sq. ft. are allowed a maximum height of 12’ and booths 1,500 sq. ft. and over are allowed a maximum height of 16’ for all display material including logos and graphics. All display material and machinery must be set back at least 1’ from all aisles.

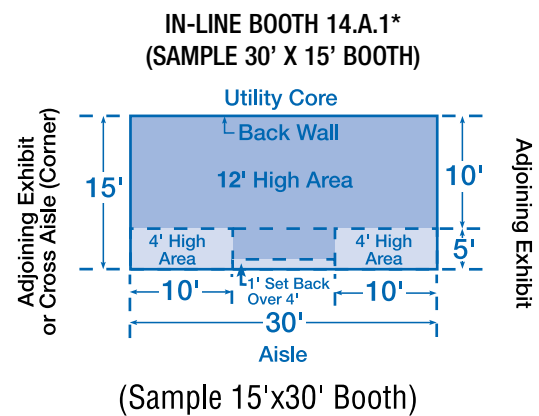

All display material and machines over 4’ in height must be placed 5’ from the main aisle and 10’ from any adjoining exhibits and/or cross aisle. (See illustration on page 20.)

NOTE: Any logo or graphics facing a neighboring exhibit must be set at least 10’ from the adjacent exhibit. All back walls over 8’ and all sidewalls must be finished and free of graphics and/or logos. (See illustration on page 20.)

(Also see Rule 14.A.6, “Note Governing All Exhibits.”)

2. **Perimeter Wall Booth:** Back wall cannot be more than 12’ high. All display material and machinery must be set back at least 1’ from the main aisle so as not to obstruct the sightline of adjoining booths.

All display material and machines over 4’ in height must be placed 5’ from the main aisle

*See Rule 14.A.1 on page 19

*See Rule 14.A.2 on page 19 and 24

EXHIBIT SPACE APPLICATION & CONTRACT

Complete this application to secure your participation in PACK EXPO International booth space selection. PMMI will contact you to select your space based on current priority status. See cover letter for details on booth selection process.

PLEASE PRINT CLEARLY/PRESS FIRMLY—Please list your requested booth size (e.g.: 10 x 10, etc.). Height regulations can be found in the Rules and Regulations located in the Exhibitor Prospectus. After your space assignment is made, PMMI will acknowledge your assigned booth number by returning an executed copy of this application to you. Please refer to the reverse side for detailed explanations.

A. Exhibit Space Size and Total Space Charge

Requested Booth Size _____ ft. x _____ ft. = _____ Total Square Feet

Total Space Charge _____ ft. x \$ _____ per sq. ft. = \$ _____ Exhibit Space Cost

*Space rate includes Drayage/Material handling—see back for details.

B. Space Contract Amount Enclosed

25% Deposit due with contract (based on total square feet requested) = \$ _____

Note: Companies who select a larger booth during space selection will be billed for the variance in deposit immediately following selection. Overpayment will be placed as credit toward final payment due. **If PMMI membership status changes at any time through the date of the Show, this contract is void and will be reissued at the non-member rate for the booth space assigned.**

Sales Tax*	\$ 0.00
TOTAL AMOUNT ENCLOSED	= \$ _____

*Tax Exempt

AMEX Discover VISA MasterCard

Credit Card Number _____

Expiration Date _____

Card Holder's Name _____

Signature _____

C. Acceptance of Terms

I, the duly authorized representative of the undersigned company, on behalf of the said company, subscribe and agree to all the terms, conditions, authorizations and covenants contained in the EXHIBIT SPACE APPLICATION & CONTRACT. This document does not constitute a contract until accepted by PMMI. We acknowledge that PMMI reserves the right to determine a company's eligibility to exhibit at PACK EXPO International. We agree to the following terms of payment: A non-refundable deposit equal to twenty-five percent (25%) of the cost of space size requested must accompany this contract. A payment of an additional fifty percent (50%) of the actual cost of space assigned must be made to PMMI on or before April 9, 2010. The final balance is due on or before June 25, 2010. Checks should be made payable to PMMI. (Please print clearly.)

Signature _____

Check here if Contact/Address information is to be updated by PMMI.

Name _____

Title _____

Contact for Booth Selection (if different from above.) _____

McCormick Place
Chicago, Illinois USA**

EXHIBIT SPACE TERMS

Please read the following terms before completing the EXHIBIT SPACE APPLICATION & CONTRACT

Non-Contiguous Space:

No exhibitor may choose more than one space using their own priority number if the booths are not contiguous. To choose additional space, companies must wait until all companies on the priority list have chosen space. **(Contiguous space is defined to mean a booth that is adjoining which crosses a cross aisle but not a main aisle. See Sample below.)** Please fill out the order form for choosing non-contiguous space for affiliates and return with contract. You will be assigned an additional date and time for selecting your non-contiguous space.

Utility Cores:

If you select a utility core in combination with two or more spaces, be sure to include the utility core square footage under "Total Square Feet" on the Contract. The sizes of the utility cores are indicated on the legend of each floor plan.

Priority:

Only companies who are current official exhibitors in good standing will be credited with the appropriate PACK EXPO International priority. Companies listed only in the description section will not receive priority credit. **Note: Exhibiting at PACK EXPO International does not affect the PACK EXPO Las Vegas priority list and vice versa.** Exhibiting in a co-located expo does not entitle any company to receive credit toward the PACK EXPO International priority.

Selecting Multiple Spaces or Parts of Spaces:

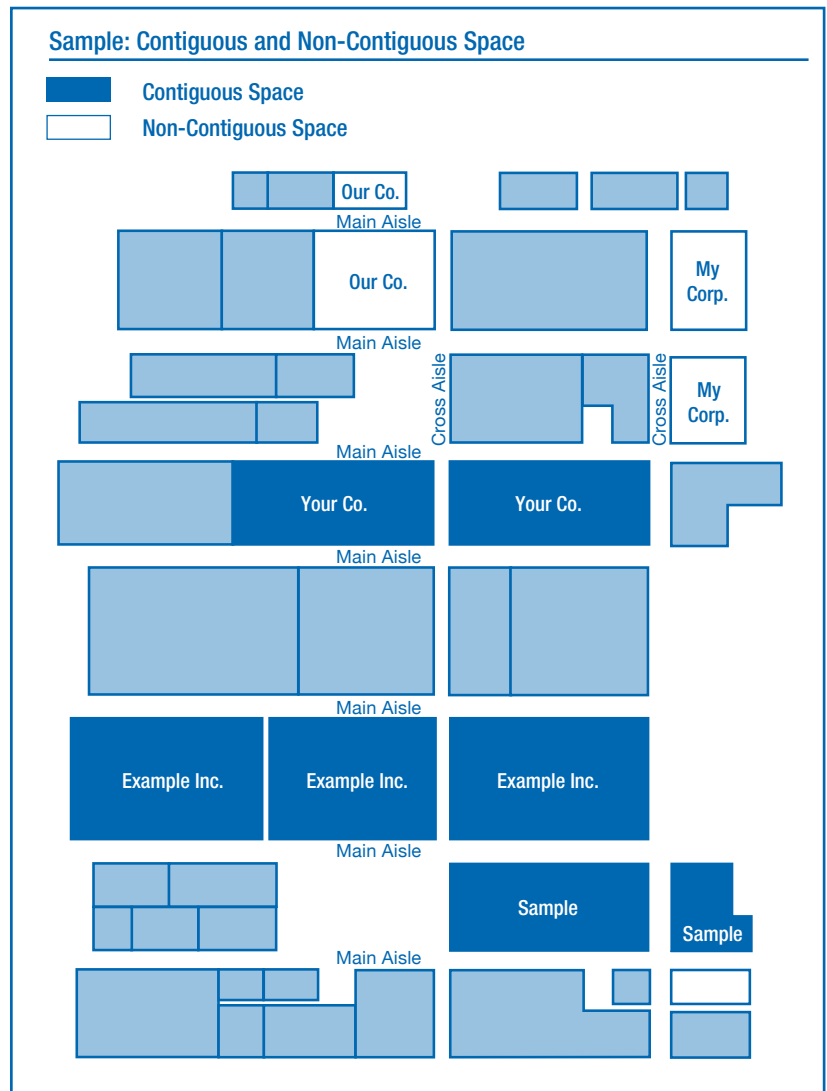

You may select several spaces to create an island booth (four-aisle exposure) or an in-line corner booth (two-aisle exposure). **No space or spaces may have main aisle frontage more than three times its depth.**

Booth Space Rate:

The PACK EXPO space rate is set annually by the Board of Directors. Submitting a completed contract and appropriate deposit payment does not guarantee booth space in PACK EXPO International. PMMI execution of contract and signature of assigned booth space is required based on space availability. All drayage/material handling is included in the space rate provided your shipment/truck checks in at McCormick Place by 2:00PM on your assigned target move-in date (see Exhibitor Service Manual for Targeted Move-in Schedule). A special assessment will apply to any inbound shipments which arrive after 2:00PM Monday-Friday, all day Saturday and Sunday (inbound only), and on any advanced warehouse shipments. See the Exhibitor Service Manual for pricing of special assessments. Space rate will include a onetime spot of equipment and display material. Any additional rigging or booth work will be billed separately at the exhibitor's expense—see Exhibitor Service Manual for pricing. All outbound drayage is included in space rate and no overtime charges or special assessments will apply.

Selecting Space for Affiliated Companies:

You may use your priority status to select space for affiliated companies. ***Affiliated companies are defined as two or more companies that are legally related entities, e.g., a parent and a subsidiary, subsidiaries of the same parent, a corporation and a division, partnership and a partner.** Companies and equipment sold in the normal course of business may be identified in the description section under the alphabetized listing at no additional charge. Additional alphabetical listings of affiliated companies can be purchased. See Exhibitor Service Manual for details.
